DETAILED ACTION

Election/Restrictions

1. Claims 2-5, 10, 11, and 13-19 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 7.
2. Applicant's election with traverse of species 3 in Paper No. 7 is acknowledged. The traversal is on the ground(s) that there is no undue burden on the examiner to examine all the claims. This is not found persuasive because of the numerous details to the species as disclosed and claimed, that the examiner would have to search. Further, as there are generic claims present, the non-elected claims would be examined on allowance of the generic claims.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 6-9, 12 and 20-27 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Boaz, 5,251,408 (note especially figures 2 and 3); Klingerman, 4,484,417 (note figure 2); or Zerrer, 5,826,478 (note figure 2). All these references disclose

abrasive tools, which are to some degree porous, in that the abrasive grit forms holes in the binding material.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Other similar fluid systems are cited of interest.
